

California OES Weather Threat Briefing

Friday, February 5, 2021
9:00 AM PST

Day 1 (Friday): No significant impacts are expected today or tonight

National Weather Service

*Western Region Headquarters
Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

02/05/21 - 02/11/21

Friday-Thursday

- No significant weather impacts are expected through the weekend as dry and mild conditions continue
- Some patchy dense fog is possible at times over the Central Valley as well as mountain valleys through the weekend, with areas of fog also possible for marine areas of southern California Sunday
- Locally gusty conditions are expected over the southern California mountains through the weekend but no fire weather concerns exist
- Some light precipitation looks to return to northern California toward the middle and latter portions of next week, but no significant storms are expected through next week
